Ontario Review Index

Second edition wave. Google review counts for five trades by city.

Cities: Hamilton · Burlington · Oakville · Mississauga

What this sample is. For each city and trade we ran one manual Google Maps search on one date and recorded the first 20 non-sponsored results. A snapshot of one search, not every business. Results change by device, location and day.

Hamilton

Google Maps, viewed Oct 15, 2026.

▶ Exclusions for Mississauga

Method

- One manual search per trade per city; first 20 non-sponsored results recorded by hand. Only star rating, review count and listing link were recorded. No review text, photos or map images.
- Boundary: each city's amalgamated limits. Listing address must be in that city. Addressless listings kept only if a local area code or the name states that city.
- Dropped: category mismatch, zero reviews, out-of-city. Duplicate listings of one brand count once (larger listing).
- Only the top 3 per trade by review count are named. Businesses below the median are never named.
- Full method: METHOD.md.
